

GENERAL CATALOGUE 2019 - 2020

Welcome

to the Future of Car-Media

Alpine offers a growing line-up of highly innovative car audio, media and navigation systems. Bring Apple CarPlay and Android Auto™ to your vehicle, and enjoy online navigation, audio streaming, digital communication and much more - all with Alpine's outstanding sound quality and attention to detail. Welcome to Alpine Style.

This catalog features basic information on Alpine's 2019 line-up. For more detailed information, visit your local Alpine website and follow us on Facebook, Instagram and YouTube.

The Alpine Halo9 brings a 9-inch high-resolution touch-screen to any vehicle with 1-DIN installation space. Its super-slim display appears to simply hover over your dashboard. Bring the future of car-media to your ride with the Alpine Halo9.

Installation Example: Volkswagen T6

Freestyle Example 3: Range Rover

Freestyle Example 4: Volkswagen Up

Alpine Advanced Dash Cams

A dash cam is an on-board camera that continuously records the view through the vehicle's front windshield. The recorded footage can be used as evidence in the event of a road accident. When parked, dash cams can capture video and picture evidence if vandalism is detected. Alpine offers a high-end dash cam that includes drive assist functions, as well as a regular recording model. There are optional rear accessory cameras available for both models.

Full HD 1080P SONY STARVIS Wi-Fi GPS

DVR-F800PRO

ADVANCED DRIVE-ASSIST DASH CAM

- 1080p Full HD recording • Sony Exmore image sensor • Excellent night image quality • Driver support features • Built-in GPS • Includes 32GB micro SD card

RVC-R800

REAR ADD-ON CAMERA FOR DVR-F800PRO

- Compatible with DVR-F800PRO • For rear surveillance while driving and in parking mode

Best Quality Drive Recording

The DVR-F800PRO records in 1080p Full HD with 30 frames per second and features the Sony Exmore Starvis image sensor for excellent recording quality even at night. GPS geo-information and driving speed are recorded as well.

- 1080p Full HD Recording
- Amazing Night View
- GPS Geo-Information
- WiFi Streaming to Smartphone

Driver Warnings and Support (DVR-F800PRO only)

This camera is packed with additional technology to support you while driving and keep you safe. Lane departure warning alerts you if your vehicle moves out of its lane. Forward Collision Warning helps to prevent or reduce the severity of a collision. Front Vehicle Departure Notification lets the driver know the vehicle in front is pulling away from an intersection. You can also upload a speed camera database to the DVR-F800PRO to receive warnings when you approach a speed camera or red light camera.

- Speed Camera Alert
- Lane Departure Warning
- Forward Collision Warning
- Front Vehicle Departure Notification

Day and Night Vehicle Surveillance

The DVR-F800PRO and DVR-F200 include parking mode that keeps your car under surveillance even at night. If any impact by another car, bike, etc is noted, the camera will store this video footage and you can review it later to identify and prove what happened.

Dash Cam Viewer for PC and MAC OS

The Alpine Dash Cam Viewer is a free-of-charge download and allows you to view your recorded videos and see important information such as GPS location, crash sensor data and driving speed at the time of recording. Available for Microsoft Windows 7, 8 and 10 and MAC OS 10.x

240 BAND Parametric EQ

Professional Sound Upgrade for Original Audio Systems

Key Features:

Professional sound tuning for any vehicle
Full flexibility with 6 input channels for high- and low power signals, as well as 8 output channels for extensive system building.

Audiophile tuning features

Get 30 bands of Parametric EQ per channel, as well as 8 channel digital time correction and crossover for expert sound tuning.

Wireless System Control

Control key functions via smartphone app and wireless connection for real-time adjustment.

Compact size

The small footprint and size of the DSP amp makes it easy to install anywhere in the vehicle. Measurements: 205mm x 150mm x 50mm.

Pure Class-D technology

Once an analog input signal is converted to digital, it remains fully digital throughout the entire processor and amplification stage.

Start-Stop engine unaffected

The DSP amp will remain in full operation if your car is running on start-stop mode.

Setup and sound tuning by PC

Download the Alpine configuration software and connect your PC via USB to the DSP amp. You can control the full channel setup for inputs and outputs in the graphical user interface and adjust all sound settings from Parametric EQ, digital time correction to crossover settings. Compatible with Windows XP, 7, 8 and 10.

Get the Alpine Remote App

Download the Alpine Remote App to your Apple or Android smartphone and connect it to the DSP amplifier via WiFi connection. This app allows you to adjust volume, subwoofer level, source selection and load presets in real-time. The Alpine remote app is available free of charge in the Apple App Store and Google Play store.

PDP-E800DSP

8-CHANNEL DIGITAL DSP AMPLIFIER

- 8 x 100W RMS @ 4Ω (<1% THD)
- 8 x 120W RMS @ 2Ω (<1% THD+N)
- 6 x analog inputs (pre-amp or speaker level)
- 8-channel digital time correction and crossover
- 240-band parametric EQ (1/3 Octave)
- 1 x optical input (12 to 96kHz / 16 or 24bit)
- Wireless smartphone connectivity
- Remote-in & Auto Sensing
- 1 PreOut (CH8 signal), 2V RMS
- 1 remote out (12V, 100mA)
- 20Hz to 22kHz frequency response range
- Burr-Brown ADC (SNR >105dB, 24bit @96kHz)
- Start-stop engine non-shutdown design
- 2 x USB client / 1 x USB host
- Remote control port for optional bass knob
- RUX-KNOB2 ready (adapter included)

Easy DAB Digital Radio for Any Car

EZi-DAB-BT

ADD-ON DAB+ RECEIVER WITH BLUETOOTH® HANDS-FREE

EZi-DAB-GO

ADD-ON DAB+ RECEIVER

DAB, DAB+ & FM Radio

Listen to your favorite DAB, DAB+ via FM transmitter or AUX input

20 Station Presets

Quickly select up to 20 DAB stations of your choice

Bluetooth® Audio Streaming

Play any music wirelessly from your smartphone

Hands-free Calling (EZi-DAB-BT only)

Wireless hands-free calling over Bluetooth® (includes microphone)

Go Button

Discover, tag and play music on the move using the Go companion app

Personal Assistant

Access your smartphone's online features through Siri or OK Google voice control

Spotify Control

Control Spotify from the device, choose playlists, artists, songs and more

Easy to install

Simple, self-fit wireless display and controller

EZi-DAB Companion App

Download the free-of-charge companion app from the Apple App Store or Google Play to connect your phone wirelessly to your EZi-DAB. This enables Bluetooth® audio and Spotify* streaming and control. Use your EZi-DAB to send voice commands to your phone via SIRI or OK Google and simply tag songs you hear and like on DAB radio to create a playlist of your favourite songs in your phone to purchase them later on.

* Spotify streaming requires a Spotify premium account.

10 BAND Parametric EQ

PWD-X5

4.1 CHANNEL DSP WITH POWERED SUBWOOFER

- Nominal Power Output: 4 x 25W + 165 Watts (mono)
- Peak Power Output: 4 x 50W + 240 Watts (mono)
- Frequency Response: 20Hz – 20kHz
- Speaker level inputs with remote ON detection
- 4-channel RCA inputs
- 2 USB ports
- Bluetooth® Audio streaming
- Wired Remote Control
- Free-of-charge Smartphone app and PC software
- 10-band Parametric EQ
- Digital Crossover
- 15 audio pre-sets selectable
- Wiring kit included

All-In-One Sound Upgrade for Any Vehicle

Achieving a perfectly integrated, high-performance car audio installation with only one device is now possible with the new Alpine PWD-X5. This very unique sound system upgrade product includes a high-performance Digital Sound Processor (DSP), 4-channel amplifier for your front and rear door speakers, as well as an ultra-flat active subwoofer. The small footprint allows the PWD-X5 to be easily installed inside the car's cabin to enjoy a nice bass upgrade.

Compact installation

The very compact measurement of only 350mm length x 245mm width x 80mm height allows the PWD-X5 to be installed under the front seats of many vehicles.

Extensive sound tuning functions

Use the built-in 10-band Parametric EQ, digital time correction and digital crossover to tune the sound of your vehicle. You can do the main setup by connecting a PC using the free Alpine software or via the included wired controller.

Wide connectivity options

You can connect the PWD-X5 to an Aftermarket radio using RCA inputs. If you have an original radio in your car that has no RCA connections, you can connect it to the DSP amplifier using the high-power inputs.

Bluetooth® Audio Streaming Bluetooth®

With the included Bluetooth® dongle that can be plugged in to one of the USB ports on the DSP amp, you can stream music from your smartphone to the PWD-X5.

Get the Smartphone App

You can download the Alpine companion app for the PWD-X5 from Google Play and the Apple App Store free of charge.

EZI-DAB-ONE

ADD-ON DAB+ RECEIVER

- Built-in DAB/DAB+ receiver
- Easy, do-it-yourself installation
- Service following
- AUX input for mobile devices
- AUX output for radio connection
- FM transmitter
- 20 presets
- Dual-colored display
- Wired control unit
- Backlit buttons
- Mobile DAB/DAB+ receiver with direct touch control
- 6 user interface languages selectable (English, German, French, Italian, Danish, Norwegian)
- Automatic channel search
- Alphabetic channel sorting
- Slide Show display (if supported)
- 24V Compatible
- Touch Control Ready
- DAB antenna sold separately

TUE-DAB1U

MOBILE DAB/DAB+ RECEIVER

- Mobile DAB/DAB+ receiver with direct touch control
- 6 user interface languages selectable (English, German, French, Italian, Danish, Norwegian)
- Automatic channel search
- Alphabetic channel sorting
- Slide Show display (if supported)
- 24V Compatible
- Touch Control Ready
- DAB antenna sold separately

KAE-232DA

DAB ANTENNA

- Structure: Bar Type, self-adhesive
- Frequency Ranges: band-III/L: 170-240MHz / 1452-1495MHz
- Supply: 5-12V (25mA), receiver (phantom) supplied
- Impedance: 50Ω
- Connection: 5m low-loss cable with angled SMB(f) plug
- Dimensions: 13 x 183mm

KAE-242DA

DAB ANTENNA

- Structure: Foil Type, self-adhesive
- Frequency Ranges: band-III/L: 170-240MHz / 1452-1495MHz
- Supply: 5 - 12V (30mA), receiver (phantom) supplied
- Impedance: 50Ω
- Connection: 3.5m low-loss cable with angled SMB(f) plug
- Dimensions: 40 x 170mm

SERIES

An Audiophile Sound Experience

The Alpine X-Series high-grade speakers and amplifiers have been engineered and tuned to create a perfect match for extraordinarily dynamic, realistic sound reproduction and a spatial sound impression. With Alpine X-Series components, you can enjoy Hi-Res Audio playback up to 40kHz with stunning detail and dynamic range.

Designed to deliver highest dynamic range and sound quality, Alpine's new flagship speakers reach their full potential when paired with the all-new X-Series digital amplifiers.

All New Motor Structure

By using a powerful neodymium magnet in a radial configuration, we could achieve a very compact motor assembly for a high vehicle compatibility rate. The radial magnet configuration drastically increases magnetic efficiency – resulting in high dynamic output and power handling.

HAMR Surround

The High Amplitude Multi-Roll (HAMR) surround allows a maximum, linear cone excursion for high SPL, while maintaining full control over the diaphragm at any excursion stage for highest sound clarity.

Hard Dome Tweeter

Instead of using a regular silk dome tweeter, Alpine chose an all-new carbon graphite hard dome tweeter design. This lightweight tweeter dome features improved high range response up to 40kHz to deliver highest sound detail.

Nano-Fibre Cone

The woofer cone consists of an all new nano-fibre material to achieve a very fast response speed and dynamic output, while keeping high clarity and realistic sound reproduction.

	Peak Power Handling	RMS Power Handling	Nominal Impedance	Frequency Response	Dimensions (mm)			
					A	B	C	D
X-S65C 6-1/2" (16.5cm) COMPONENT 2-WAY SPEAKER	360W	120W	4Ω	60Hz-40kHz	165	8	59	137
X-S65 6-1/2" (16.5cm) COAXIAL 2-WAY SPEAKER	330W	110W	4Ω	60Hz-40kHz	165	8	59	137
X-S69C 6x9" (16cm x 24cm) COMPONENT 2-WAY SPEAKER	360W	120W	4Ω	60Hz-40kHz	119 x 167	9	78	148 x 223

All dimensions in mm

The all-new X-Series amplifiers set a new standard for sound quality performance and power output in a very compact design.

All Digital Design

Compact and Powerful: the new digital amplification circuit allows very high power output while keeping a small footprint.

Smart Installation

We fully redesigned the speaker and power supply terminal connectors. This very compact design allows clean and simple installation with lossless connectivity.

Sound Quality Performance

The new X-Series amps are designed for true HI-Res Audio playback, featuring ultra-low distortion and a wide frequency range.

Thermal Management

The new heat sink design uses the chimney effect to move cold air over the heat sink and transfers heat away from the amp. Combined with IC controlled overheating protection, the X-Series amps play without shutdown from overheating.

	X-A90M	X-A70F	X-A90V
Output Channels	Mono	4 Channels	5 Channels
Max Power Output	1800W	1400W	1800W
RMS Power Output [@14.4V 1%THD]	1 x 900W (2Ω) 1 x 600W (4Ω)	4 x 175W (2Ω) 4 x 120W (4Ω)	4 x 100W + 1 x 500W (2Ω) 4 x 75W + 1 x 300W (4Ω)
Amplification Circuit	Class-D	Class-D	Class-D

Common Features: Selectable Variable HP filter (4 and 5 channel models only) • Mono amps provide Variable LP, Selectable Subsonic Filters (mono only) • Remote Bass Knob Ready (mono and 5ch only) • Thermal and Low Voltage Protection • Ultra Wide Frequency Response Range • Quick Connectors for Speakers and power terminal

Introducing the ultimate subwoofer: this monster sub is designed to handle power - a lot of power: 2700 Watts peak, to be exact.

All New Design

The X-Series subwoofers are newly designed from the ground up to perfectly match the new X-Series amplifiers and to include the latest improvements in materials and technologies. The new concealed mounting system hides the screws and creates an air-tight seal for great looks and improved reliability. Available in 12-inch and 10-inch configuration, these subwoofers are class-leading in terms of bass output and clarity.

Voice Coil Cooling System

A venting system forces hot air out and cool air in, keeping the voice coils cool. Better cooling means better performance and longer life.

	Peak Power Handling	RMS Power Handling	Nominal Impedance	Frequency Response	Dimensions (mm)		Recommended Enclosure	Sealed Enclosure				
					A	B		Recommended	Recommended Volume	Round Port Dis. x L (cm)	Slot Port W x H x L (cm)

Common Features: Pulp/Mica layered cone • Polypropylene dust cap • Concealed mount gasket • Rubber HAMR surround • Tripple-Stacked Ferrite magnet (Y35) • 28mm Xmax • Dual shorting rings

Powerful Bass and High Clarity

R-Series speakers and amps are engineered to deliver prodigious power while maintaining extreme sound clarity for totally exciting sound.

They provide high power output and handling, wide frequency response and a powerful bass. The R-Series line includes component and coaxial speakers, subwoofers and for the first time, amplifiers.

Meet the 2nd generation of R-Series speakers: packed with many improvements for improved sound quality and bass performance.

Re-Engineered For Highest Performance

The 2nd generation of R-Series speakers include many improvements. We increased the voice coil diameter from 30 to 35mm, while the magnet diameter was also increased. This results in a stronger motor structure with a more powerful bass output. The cone material was switched to CFRP, which is 3 times stronger than aluminum at the same weight. The benefit is a much higher dynamic and clarity of the speaker.

Easy To Install Network

The external network is very compact and easy to install. Simply slide open the cover to gain access to the tweeter level adjustment (0dB / -2dB / -4dB / -6dB). This ensures a perfect balance between woofer and tweeter level in your car.

HAMR Surround

The High Amplitude Multi-Roll (HAMR) surround allows a maximum, linear cone excursion for high SPL, while maintaining full control over the diaphragm at any excursion stage for highest sound clarity.

Hi-Res Audio Tweeters

The new R-Series speakers are designed for true Hi-Res Audio reproduction, featuring a frequency range of up to 40kHz.

* Previous generation model

With their high power output, the all new Alpine R-Series amplifiers are a perfect match for the R-Series speakers and subwoofers

High Performance and Sound Quality

R-Series amplifiers are built on the X-Series Alpine-proprietary circuit design, that achieves class-leading power density and reliability while performing at the top of its class. By simplifying the circuit topology, Alpine is able to ensure the cleanest possible signal path. This clever design results in a frequency response that meets the Hi-Res audio standard of 40kHz. They maintain a very low phase shift throughout the music spectrum, which allows your music to stay faithful to the original recording. The amps also include many Alpine custom internal components to achieve excellent sound quality.

	R-A75M	R-A60F
Output Channels	Mono	4-Channels
Max Power Output	1500W	1200W
RMS Power Output (@14.4V 1%THD)	1 x 750W (2Ω) 1 x 500W (4Ω)	4 x 150W (2Ω) 4 x 100W (4Ω)
Amplification Circuit	Class-D	Class-D

Common Features: Input Gain adjustment 0.1V-4V (R-A75M), 0.2V-4V (R-A60F) • Bass EQ (R-A75M only) • Selectable Variable HP filter and Bandpass filter (R-A60F only) • Mono amp provides Variable LP Filter & Selectable Subsonic Filters • Remote Bass Knob Ready (R-A75M only)
 • Thermal and Low Voltage Protection • Heavy gauge power terminal
 • RCA low and high power speaker inputs

The new R-Series subwoofers provide the kind of real power and massive bass only hinted at by other subs.

The Next Evolution of Proven Performance

Although the R-Series subwoofers are new for 2019, they actually come from an impressive Alpine lineage – the Type-R subwoofers. Type-R subwoofers have been known for their power handling, clean output and deep bass excursion. Using the highly successful Type-R subwoofers as a foundation, we applied various performance and hardware improvements to the design, essentially transforming them into the new R-Series subwoofers.

		Peak Power Handling	RMS Power Handling	Nominal Impedance	Frequency Response	Dimensions (mm)

Optional Grilles

The S-Series speakers come without grilles. Optional grilles are available as shown here.

S-Series Speaker Grilles

KTE-S65G	For use with S-S65C and S-S65
KTE-S50G	For use with S-S50
KTE-S69G	For use with S-S69C and S-S69

All-new S-Series Amplifiers

Alpine introduces the all-new S-Series amplifiers, that are a perfect match to the S-Series speakers. These amps have an excellent Watts-per-Euro ratio in the Class-D category and feature a very high heat resistance and won't shut down due to overheating.

High Power Handling

The new Type-G Series of component and coaxial speakers are designed and built to handle high power levels.

Ease of Installation

Snap Fit tweeter, swivel mount, and flush install bracket make installation easy. The crossover network is small and can be separated into two parts to further reduce size and allow use of factory wiring.

Good Sound Quality

They deliver good sound quality, due to a soft dome tweeter, square voice coil wire with Kapton VC bobbin and an audio tuned capacitor.

High Power, Great Value

This amp delivers high output power and exceptional performance for its class. A great way to expand your sound system on a limited budget.

	BBX-F1200	BBX-T600
Output Channels	4 Channels	2 Channels
Power	14.4V, 4Ω	4 x 50W (4Ω)
	14.4V, 2Ω	2 x 50W (4Ω)
	4 x 70W (2Ω)	2 x 70W (2Ω)
	BTL	2x130W (bridged)
Max Power Output	600W	300W
Function	Filter	Variable, OFF/LP/HP Selectable
	LP	50Hz - 500Hz -12dB/oct
	HP	50Hz - 500Hz -12dB/oct
	Bass EQ	0dB to +12dB Variable (3/4ch only)
		Variable, OFF/LP/HP Selectable
		50Hz - 250Hz -12dB/oct
		80Hz - 1.2kHz -12dB/oct
		0dB to +12dB Variable

Common Features: Input Gain adjustment, 0.2V-8V, Bass EQ, Variable Filters, HP&LP, Thermal Protection

Affordable Upgrading to Higher Performance.

The Type-E Custom Fit speakers allow easy, do-it-yourself installation in a wide range of cars. Offering impressive full-range performance, they can be powered from the head unit, so are a high-value choice for upgrading from factory speakers.

Blue illumination Window

Acrylic windows provide an inside view and the blue illumination adds a cool effect. Its fully enclosed structure ensures that nothing sliding around in the trunk damages the woofer.
